

NONPROFITS

Helped save money in licensing fees

Christ's Home

The challenge

A new client was running an internally hosted email server along with full Microsoft Office licenses. In order to upgrade their licenses, this 100+ year old organization was facing tens of thousands of dollars in licensing fees.

What we did

navitend advocated for the organization to receive non-profit status with Microsoft to obtain Office 365 pricing at greatly discounted rates.

The result

This organization can keep their resources focused on their mission and at the same time enjoy the best-of-class email and productivity software to run their organization.

Talk to a person, not a ticket

Tell us what's going on. We'll listen, ask good questions, and give you a straight answer about whether we can help.
